HOW TO FIND OUT.

Fill a bottle or common glass with your water and let it stand twenty four hours: a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proo that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowl edge so often expressed, that Dr Kilmer's Swamp Root, the great kidney remedy fulfills every wish in relieving pain in the back, kidneys. liver bladder and every part of the urinary passages. It corrects mability to hold urin and scalding pain in passing it, or bad effects following the use liquor, heer, or wine, and over comes that unpleasant ne cessity of being compelled to get up many times during the night touri nate. The mild and extraordinary effect of Swamp-Root is soon real ized. It stands the highest for its wonderful cures of the most distres sing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. You may have a sample bottle ond pamphlet both sent free by mail. The Greenbrier Railroad.

The incorporation of the Greenbrier Railroad Company of West Virginia, has brought to light the plans of an enterprise organized by New York capitalists, which has for its object the development of the coal fields of that state. The capitalists interested have purchased from John T. McGraw of Grafton a tract of 200 000 seres of wild ton a tract of 300,000 acres of wild West Virginia, for which they are some of the results of the use paid \$520,000.

In addition to this tract, they have obtained control of some smaller ones, making their total holdings nearly a half - million acres. Rich beds of coal underlie these lands, and the mining of this

coal will soon begin.

The Greenbrier Railroad Company capital stock is \$100.000, and the incorporators are M. E. Ingalls Decatur Axtell, H. C. Simms, F. B. Enslow, and J. M. Gill. The and all kindred diseases. Chesapeake and Ohio road at the mouth of Greenbrier river to a point within ten miles of the lands recently purchased.

The purchasers of the lands are to take the bonds issued for the construction of the road. It is also announced that the New York syndicate has obtained control of the Dry Fork Railroad, which runs testify, seems to have but recently through a portion of the recently gained ground in England judging purchased lands.

The connexion of Mr Ingalls with the project shows that the Chesapeake and Ohio Railway Co. is to profit by it. Mr Ingalls himthat he would soon be in position to make rates on Kanawha coal to Duluth and St. Paul, which would coal out of those markets.

Mining engineers report that the coal in the recently acquired lands is the finest in the State.—Balti-

The frames are made in one piece of steel engle bar, and formed to withstand all strain without buckling or warping. The teeth in this harrow are so spared that they will not trail each other, Pulverizing the ground thoroughly. The steel pipe tooth bars are mounted in maleable boxes secured to the frame, and will not bend or break. The peculiar shape of the teeth curling twothirds about the bar gives the greatest amount of spring possible without straining the bolts, and because of their shape and fastening are stronger than used on any other harrow. By the levers the depth of work can be regulated while the harrow is in motion. The draft is steady and direct as the harrow has no side motion.
